

Exchequer Software Receive ICAEW Accreditation

Exchequer Enterprise passes Institute's criteria for levels for quality and support

Accounting and business management software author, Exchequer Software, today announces that its flagship product, Exchequer Enterprise, has been accredited* by the Institute of Chartered Accountants in England and Wales (ICAEW), as part of the ICAEW IT Products Accreditation Scheme.

The Institute's Accreditation Scheme attempts to minimise the risk of investing in IT products by providing information about their capabilities. The accreditation of Enterprise reinforces Exchequer Software's position as a leading developer of accounting and business management software for small and medium sized organisations.

Craig McLellan of the ICAEW IT Faculty, comments, "On behalf of the ICAEW Accreditation scheme, I am delighted to welcome Exchequer Enterprise to our list of accredited software. I must remark on how seriously senior management took the accreditation process on board and the quality of their submission."

The evaluation and accreditation process for Exchequer Enterprise was conducted on behalf of the ICAEW by Baker Tilly, who assessed Enterprise Version 5.00 against a broad range of criteria stipulated by the ICAEW. These criteria included ease of use, functionality, security, reporting, user documentation, integration, support and maintenance.

The evaluation was undertaken at Exchequer Software's head office in Bournemouth. Exchequer completed a detailed questionnaire in advance of the evaluation, and provided a full copy of its Enterprise software including demonstration data, which formed the basis of the evaluation.

John Oates, an Executive Member of the National Board for ISCA at Baker Tilly, says, "Baker Tilly were delighted to conduct the accreditation of Exchequer Enterprise on behalf of the ICAEW and were very impressed by the detailed quality of the technical evaluation put forward by Exchequer Software."

Exchequer Software has a long-standing commitment to technological innovation, ease of use and excellent customer support. It has won the Accountancy Age Award for Best Mid-Range Accounting Software three times in the last four years. It is also the current holder of 'BASDA's Best Mid-Range Accounting Software Award'. In a recent AccountingWeb IT Zone survey, Exchequer Enterprise came first against all other leading accounting software providers, in terms of combined product and user support satisfaction.

Eduardo Loigorri, Co-founder and Managing Director of Exchequer Software, says, "We are very pleased to have received the ICAEW accreditation and this demonstrates yet again that Exchequer Enterprise meets the very latest industry standards and benchmarks. The ICAEW is a very well respected Institution within the Accounting profession and by displaying the ICAEW logo on our software we are confirming our position in the market as a provider of intuitive, innovative and reliable software for SMEs."

PRODUCTS ARE ACCREDITED ON THE BASIS THAT:

- The suppliers of the products have passed the Institute's criteria for levels of support and stability;
- The products have been found acceptable by an independent technical evaluation in accordance with a published standard set of questions;
- There is an annual confirmation of the supplier's credentials and the evaluation of the package;

There is an opportunity to obtain special discounts or other benefits, such as free training when purchasing the product
